User i ri eshte gati per tu loguar ne sistem me te drejta si e krijuam. Nqs duhet ti hiqen ose shtohen te drejta duhet bere vetem administratori.

Mqs ne kompjuter jane instaluar dy certifikata (administrator dhe user) duhet te beni kujdes kur te beni log-in qe te zgjidhni certifikaten e duhur per secilin user.

Kjo procedure behet vetem nje here dhe pastaj log-in do te jete i thjeshte vetem me username dhe password.
